

ENCHANTING BANGKOK

"The most important thing is you should not be split or fighting each other"

Bhumibol Adulyadej

Bangkok, officially known in Thai as Krung Thep Maha Nakhon and colloquially as Krung Thep, is the capital and most populous city of Thailand. Bangkok, the centre of the Bangkok Metropolitan Area, has been the capital of Thailand since 1782. There are many palaces in the city, some still used by the Thai royal family, while others are now open to the public. Many of them have become government or academic buildings as well as museums. The king's official residence is the Grand Palace, which has housed Thailand's monarchs for over 200 years. The city has grown from its original center along the river into a sprawling metropolis surrounded by swaths of suburban residential development extending north and south into neighboring provinces.

ABOUT THE INTERNATIONAL CONFERENCE ON ENGINEERING, MANAGEMENT, AND ADVANCED TECHNOLOGIES -2027 (EMAT2027)

The International Conference on Engineering, Management, and Advanced Technologies -2027 (EMAT-2027) will be held in Bangkok on March 23-26, 2027. EMAT-2027 will be the most comprehensive conference focused on the various aspects of Arts, Science, Management, Engineering & Technology and is aimed to

showcase the new and everlasting research trends, frontiers, innovations, advancements & developments in the contemporary disciplines. EMAT-2027 is a premier gathering of professors, scientists, engineers, technologists, planners, managers, innovators, policy makers, student researchers, and others interested for sharing ideas, knowledge and experiences across the globe.

The professional from the industry, academia and government to discourse on research and development, professional practice, business and management are welcome to the EMAT-2027.

OBJECTIVES

The EMAT has three primary aims:

The **first aim** is to provide opportunities for academics from a range of disciplines and countries to share their research through the conference podium. All EMAT conferences are inter- and multi-disciplinary.

The **second aim** of the Conference Series is to provide opportunities for academics to receive informal in-depth feedback through discussions, and to enable them to establish contact with professionals in other countries and institutions. The tours are the main way of "breaking the ice" away from the formalities of the conference hall, providing an informal setting for discussing different points of view. Even in an increasingly networked world of internet and satellite conferences, there is no substitute for personal interaction—what Edward R. Murrow calls "the last three feet of communication."

The **third aim** of the Conference Series is to introduce academics to educational premises in locations that are suitable for study abroad programs and which may meet their students' educational need.

TOURS

A complimentary one day safari World tour and one day Bangkok city tour will be provided to participants who will register for four-day conference.

International Conference on Engineering, Management, and Advanced Technologies (EMAT-2027), Bangkok, Thailand (March 23-26, 2027)

Organized by

International Research Innovation Alliance

Chief Coordinators :-

Dr. G.K. Khamba

Dr. Sandeep Kaur

www.iriainconference.org

PARTICIPANTS

We look forward to welcoming current researches on advances and innovations being carried out by scientists, scholars, engineers, and students from the universities in the area of Arts, Science, Management, Engineering and Technology all around the world! We hope that you can join us in the EMAT with new insights during March 23-26, 2027. The programme is interdisciplinary and only limited number of seats are available. The interested person needs to submit the abstract of manuscript through www.iriainconference.org/Bangkok. The editorial board of EMAT-2027 welcomes invites abstracts as long as they fall along one of the following five tracks:

Social Sciences and Humanities
Business and Economics
Teaching and Education
Engineering and Technology
Physical, Life and Health Sciences

After peer review by the advisory committee, decision will be communicated to the author. In case of acceptance of abstract, author will have to email the manuscript to secretaryriaconference@gmail.com and register for the conference. The accepted submissions will be clustered around their common topics and areas of interest

REGISTRATION

Registration is open to everyone, not just to research presenters. Participant may attend the conference as Listener also (Without submitting any manuscript). Following options are available for registration:

Registration fees	Early Bird Registration (by 15 th Nov. 2026)	After 15 th Nov. 2026
Listeners/Student/Research Scholar/Academician/Industrial Participant for one Day (Tours not included)	275 USD	325 USD
Listeners/ Student/Research Scholar/Academician/Industrial Participant for four Days (Tours included)	425 USD	495 USD
Listeners/ Student/Research Scholar/Academician/Industrial Participant (for two persons) for four Days (Tours included)	675 USD	825 USD
Virtual Participation	100 USD	150 USD

The \$825 option is not available for two authors with two or more research presentations. Participants may register through the registration link which is available at www.iriconference.org/Bangkok

CALL FOR PAPERS

All submitted conference papers will be blind peer reviewed by three competent reviewers. Accepted papers will be published in **International Journal of All Research Education & Scientific Method**. Selected papers will be published in **Scopus indexed** journals after peer review. The conference proceedings in CD and certificate of presentation and attendance will be distributed to participants at the conference registration desk.

CONFERENCE VENUE

The conference will run from March 23 to 26, 2027 at Ambassador Hotel, 171 Sukhumvit Soi 11, Bangkok.
